

Grigorios Piperagkas

Contact information

email: gpiperag@pm.me

Mobile: +30 6977229302

web: <https://grigoriospiperagkas.info>

Residential address

Kavvadia 4, Eleousa Ioanninon
45500, Ioannina,
Greece

Education

MEng in Computer Science and Engineering - Dept. of Computer Science and Engineering, University of Ioannina

Oct 2010 - Jul 2012

MEng in Electrical and Computer Engineering - School of Electrical and Computer Engineering, National Technical University of Athens

Oct 2003 - Nov 2009

Experience

- **Apr. 2022 - now: Pragma-IoT SA, Thessaloniki, Greece** (www.pragma-iot.com). Research Associate/Software Engineer. Analysis, design and development of applications and systems.
- **Dec. 2021 - now: Information Technologies Institute, Centre for Research and Technology Hellas, Ioannina, Greece** (www.iti.gr / www.certh.gr). Research Associate. Participatory systems, smart cities and data spaces for energy communities.
- **Oct. 2018 - Sep. 2020: Institut National de Recherche en Informatique et en Automatique (INRIA) Paris, France. MiMove team** (www.inria.fr). Research associate. Leveraging middleware and the IoT for urban-scale participatory systems.
- **Jan. 2018 - Aug. 2018: Personal & Informatik AG, Ioannina, Greece** (www.pi-ag.com). Software Engineer. Human resources management software.
- **Dec. 2015 - Dec. 2017: Information Technologies Institute, Centre for Research and Technology Hellas, Thessaloniki, Greece** (www.iti.gr / www.certh.gr). Research Associate. Computer vision and robotics for assembly processes.
- **Mar. 2014 - Jun. 2015: Adsurf - Performance marketing startup company, Ioannina, Greece.** co-founder.
- **Jul. 2011 - Nov. 2013: University of Ioannina, Ioannina, Greece.** Research Associate. Simulation - optimization processes for Adriatic port operations.
- **Jan. 2011 - Oct. 2012: University of Ioannina, Ioannina, Greece** (www.uoi.gr). Software/web developer.
- **Jun. 2010 - Sep. 2010: Public Power Corporation - Distribution Grid dept., Athens, Greece** (www.dei.gr). Electrical and Computer Engineer. Software administration for electric power distribution grid.

Projects

- **ITI/CERTH, DATA CELLAR project:** research and development of a federated energy dataspace that will support the creation, development and management of local energy communities. Contribution on the specifications and requirements of the dataspace design. Contribution on data anonymization algorithms and data aggregation approaches.
- **Pragma-IoT SA:** research and development of on-device DNN Training Library. Development in C++, OpenCL, Python, Java.

- **ITI/CERTH, IRIS smart city project:** participation in the final evaluation of the City Innovation Platform of the project.
- **ITI/CERTH, POCITYF project:** research and development of participatory systems and software platforms for greener, smarter and more livable cities while respecting their cultural heritage. Contribution on citizen engagement activities through a behavioural insights mechanism for positive energy districts. Customization of KPI monitoring/visualization software platforms.
- **INRIA Paris:** research in middleware and IoT technologies for urban-scale participatory systems, with application focus on social participation networks.
- **P&I AG:** experience in agile development environment for software based on customers requirements. Development in Java.
- **ITI/CERTH, SARAFun project, H2020:** research and development of robotics and computer vision applications for assembly processes. Technologies used include open source platforms and software for image and video analysis, e.g. Linux, openCV, Robot Operating System, 3D point clouds, development in C++.
- **University of Ioannina, Adriatic Port community/ SAIL project:** research and development of simulation - optimization algorithms and mathematical modelling with application in Adriatic port operation processes. Use of metaheuristic optimization algorithms and web-services. Development in C++.
- **University of Ioannina, research experience:** academic research in numerical optimization with use of metaheuristic algorithms, applied in multiple theoretical problems, e.g. supply chain. Development in C++, matlab. Results published in peer-reviewed international conferences and journals.

Publications

Journal articles

Skills

Languages

Greek: Excellent

English: Excellent, *Certificate of Proficiency in English, University of Cambridge.*

German: Good, *Zertifikat Grundstufe, Goethe-Institut.*

Computer skills

OS: OS X, GNU/Linux, MS Windows

Computer Languages: fluent: C, C++, Java, Matlab, PHP, XML, HTML
basic/moderate skills: python, javascript, bash, SQL

Honours and Awards

"Zosima" scholarship for undergraduate studies, distinction in examinations of the Greek Ministry of National Education and Religious Affairs, years 2004-2008.

Greek Mathematical Society, distinction in national competition in mathematics, year 2000.

Memberships

Member of the Technical Chamber of Greece.

ACM Professional member.
